## ..... AFG in a few words .....

**The French Asset Management Association** (Association Française de la Gestion financière, AFG) represents France's Asset Management Industry.

AFG's members are French asset managers: either boutique entrepreneurial houses or subsidiaries of banking, insurance or money management groups. In 2009, the AFG added the category of "correspondent member", which comprises lawyers, consultancies, IT service providers, data vendors and branches of foreign management companies that are part of the French investment management ecosystem.

### Role and tasks

The AFG represents and promote the interests of asset management professionals and their clients. The AFG informs, help and train its members. The AFG contributes actively to shaping the regulatory framework by interfacing with the French, European and international authorities. The AFG establishes rules of conduct for the profession and promotes the French asset management industry internationally.
